Design.

Form.

Functionality.

For an attractive representation.

Design, form & functionality in focus: labels that embellish your product's representation...

Welcome to the creative department of LANGE AG!

We have been producing high-quality product, safety and functional labels since our company was founded in 1936. Behind every label produced by LANGE AG is many years of experience.

Whether it is simple and straightforward or highly complex and refined; our creative employees will find an impressive solution for every challenge. Our employees keep up to date with the latest technical developments for your labels and regular audits guarantee that we „stay fit“ and continuously improve our quality standards.

Our aim is to ensure a long-term partnership with high-quality products, reliability and customer-oriented services.

Sustainable and environmentally friendly

Wide range of materials and adhesives

Product labels

Our product labels are the perfect addition for beverages, food, consumer goods, banderoles and other products. They not only serve as labelling and information, but also focus on an appealing design.

Whether the design is simple or complex, we strive for an aesthetic appearance. Give your products a touch of style and elegance with our creatively designed product labels.

Promotion labels

Promotional labels are the key to successful advertising campaigns, price promotions and contests. With eye-catching colours, vibrant designs and catchy elements, they are designed to attract attention. Promotional and memorable, they stand out clearly from other products. Give your promotion that little bit of extra with labels that not only reveal information, but also offer an interactive experience with scratch-off fields and other creative marketing elements.

Embellished labels

Our screen printing, hot stamping, cold stamping and laminate finishes give products an elegant touch. Designed for high-quality specialities, these labels are characterised by their attractiveness and clearly stand out from the crowd.

Embellished labels offer that little bit of extra that gives your products a unique feature.

Function labels

Our multifunctional labels are true all-rounders and fulfil one or more functions customized to your needs. Whether for resealable applications, adhesion, multilayer or capacitive sensor detection, these labels not only stick to products, but also offer a wide range of functions. From the conductivity of electrical signals to special functions such as type plates and luminescent colours, there are no limits to the labels.

- Closing & Reclosable
- Protection
- Multiple layers, peel off
- Conductivity of electrical signals
- Luminescent colours
- Type plates etc.

Non-adhesive labels

Is adhesive not desired for your application? We also offer a wide range of options in the area of non-adhesive labels. With countless materials and individual special solutions, there is an unlimited choice of possibilities that is (almost) only limited by your imagination. Hanging signs that are also suitable for direct food contact, plant labels with watering instructions, tickets for the concert you are organizing soon or banderoles with your advertising: the possibilities are countless.

Hang tags

Whether for a chocolate bunny, a car after service or a fine wine on the shelf: Hang tags of all kinds are one of our specialties. We are one of the few Swiss suppliers that can process a wide range of threads and eyelets by machine. Upon request, we will not only take care of your tags finishing touches, but provide the entire package including printing.

Durable labels

Our durable labels are true all-rounders and can withstand the challenges of freezing temperatures, extreme heat, chemicals, weather and more. They not only provide security information, but also serve as reliable carriers of warnings, notices as well as attract attention. Whether in extreme temperatures, direct sunlight or challenging environments, our durable labels maintain their quality and message.

Weather and climate resistant

Temperature resistant (Heat and cold)

Data-variable labels

Our data-variable labels are suitable for personalisation and identification. Whether individualised labelling, alternating images, consecutive numbering, barcodes, QR codes or RFID coding - there is a solution for all your wishes. Each label is a unique carrier of information, perfectly tailored to the demands of your company.

Security labels

Our security products, including tickets, waste tags, also for bulky or green waste, as well as closure labels with a first-opening guarantee, can also be equipped with 3D holograms, guilloché printing and other security-relevant elements. We set the highest standards in security printing. Thanks to innovative technologies, we not only offer physical security, but also the highest level of authenticity and protection against counterfeiting.

Each product is carefully designed and produced to fulfil the highest security requirements while offering a visually appealing and unique appearance. Our range is enhanced by the use of special colours and exclusive hologram foils to offer you an even wider range of security features and design possibilities.

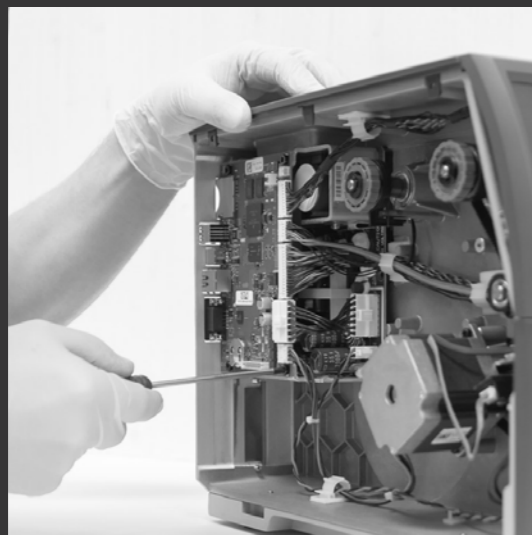

- Holograms
- Security die-cuts
- Scratch-off, luminescent and IR colours
- Thermoreactive colours
- Void effect

- Embossing

Printing systems & accessories

Welcome to the world of printing solutions! Experience outstanding printing performance and first-class quality with label printers from CAB. These devices set standards for razor-sharp labelling and are characterized by precision, speed and proven reliability. The blank labels used for this are available in a wide range of materials and sizes and enable optimum adaptation to the various printing systems such as laser, inkjet, direct thermal and thermal transfer. In addition to our printers and labels, we have a considerable variety of thermal transfer ribbons for every type of application, a wide range of accessories and spare parts as well as special software.

Service & training

In addition to the professional installation of your printing systems, we offer a complete printer service. Our experts are on hand to ensure that your printing systems run smoothly at all times. We also offer a wide range of training courses on printing systems, labels and thermal transfer ribbons. Our goal is to provide your team with the best possible training so that you can utilise the full potential of your systems. Put your trust in our service and benefit from customised training for an efficient and successful printing process.
